Shri Ajit Singhvi, industry leader, management consultant and philanthropist of repute has authored a unique book titled “**Fast tracking to Managerial & CEO Roles: Management, Transformation & Continuous Renewals Handbook**”, along with Shri Sapta Sheel.

Shri Ajit Singhvi’s book makes a notable contribution to the management domain by bringing together, in one comprehensive volume, 277 management and leadership concepts and constructs, neatly organized under 11 chapters. A striking feature of the book is that all the concepts and frameworks are explained with innumerable drawings and graphics that are attractively made and thoughtfully positioned. The way the book is conceptualized, authored and executed is bound to keep the book fresh in the memory of readers even with passage of time.

The book clearly distils Shri Ajit Singhvi’s five decades of rich and diversified industrial and business experience and Shri Sapta Sheel’s three decades of international management experience. The book is also specially written as an indispensable handbook for students and professionals to gain knowledge that would prepare them for positions of higher responsibility. Uniquely, each chapter is a standalone guide on each of the functional domains. The book as the sum of the parts is, of course, highly synergistic in value. Once the book is read completely, the reader would gain a comprehensive and holistic knowledge of the practice of management.

I would commend Shri Singhvi and Shri Sapta Sheel’s work as a highly desirable book for students of higher education and professionals with aspirations of rapid and impactful career growth.
