Dear Dr Singhvi,

Greetings! I read your handbook titled "Fast Tracking to Managerial & CEO Roles" coauthored with Mr Sapta Sheel.

Firstly the book is quite comprehensive and covers almost all aspects of Management which is very much required for the present day management leaders. The book will add value and empower young graduates irrespective of the discipline to become better thought leaders.

The handbook which encompasses 277 topics is a good recommended reading material for students across disciplines to help them become more proficient in business management through self-study.

With regards,

Yours sincerely,

[G. Arun Kumar]
